Mr. Keith Lund  
Burlington Environmental Inc.  
Technical Center  
955 Powell Avenue SW  
Renton, WA 98055-2908

Dear Mr. Lund:

Re: Interim Status Closure Plan Approval for the Burlington  
Environmental Inc. Pier 91 Facility, WAD000812917

The public comment period for the interim status closure plan started on April 10, 1995 and ended on May 10, 1995. No comments were received by the Department of Ecology (Ecology).

The interim status closure plan for the former hazardous waste storage tanks is approved. Please proceed with implementation of the closure plan. The closure activities must be completed within 180 days after this approval and in accordance with the conditions of the closure plan (WAC 173-303-400, and by reference, 40 CFR 265.113).

Within 60 days of completion of the closure, Burlington Environmental Inc. must submit to Ecology (by registered mail), a certification that the closure activities have been completed in accordance with the specifications of the approved closure plan. The certification must be signed by the owner or operator of the Pier 91 facility and by an independent registered professional engineer (WAC 173-303-400, and by reference, 40 CFR 265.115).

If you have any questions or comments regarding these matters, please contact Galen Tritt at (206) 649-7280.

Sincerely,

Julie Sellick, Supervisor  
Hazardous Waste and Toxics Reduction Section
